Leadspace for Salesforce

Close bigger, better deals and shorten Sales cycles — without leaving your CRM

Leadspace for Salesforce provides on-demand insights into who your ideal customers are, where they are located, when to reach out, and how to convert them.

This means:

- **More efficient and precise sales operations** — from territory planning, to lead-to-account matching and lead routing, to mapping account hierarchies.
- **More effective customer outreach & engagement**, leading to higher conversion rates and bigger deals.

LEADSPEACE CUSTOMERS SEE INCREDIBLE BENEFITS:

- 2x global people coverage
- Identify & target ideal accounts and buying centers
- +30% more accuracy for firmographic, demographic & technographic signals
- 55% higher win rate
- >50% cost savings on data spend
- >10% higher SAL-SQL conversion rate
LEADSPEACE FOR SALESFORCE

How Does It Work?

STEP 01
Define the Records to Enrich

Select manually or from your Salesforce reports. You can enrich all fields, or select specific fields (e.g. email address, installed tech) or groups of fields (e.g. Contact Details, Firmographics).

KEY BENEFITS

Your 1st-party data combined and verified with 40+ 3rd-party sources

Clean and enrich your CRM with real-time, accurate data (>80 highly actionable fields of company and person data)
STEP 02

Select When to Enrich Records

**On-Demand:** immediately

**Periodic:** Schedule it daily, weekly, monthly, quarterly, or every 6 months

**Event Based:** Choose a trigger event (e.g. if a new lead is created, if an email changes)

With Leadspace for Salesforce we’re confident we’re targeting the right prospects with the right offerings, throughout the Sales funnel.

Marketing Operations Manager
SOVOS

---

**KEY BENEFITS**

- **On-demand enrichment** of Contacts, Leads and Accounts
- **Enriched records synced directly** into your Salesforce
STEP 03

Let Leadspace do the Heavy-Lifting

Leadspace whips your data into shape—appending >80 highly actionable data fields, predictive scores, persona scores and intent scores to each record.

You’ll receive an email notification after each enrichment is completed. Depending on the amount of data, this can take anything from a few minutes to one day.

Check your activity report to see which records have been enriched, when, and by which team member.

KEY BENEFITS

- **AI-powered Predictive Scoring** to prioritize best-fit customers
- **Persona Scoring** for more precise, personalized segmentation
- **Intent Signals & Scores** to accurately time your outreach with the right value propositions to increase win rates

For the Event Based setting, the relevant record will be enriched when triggered.
Why Leadspace is Better

Leadspace is the first Customer Data Platform for B2B Sales and Marketing.

Our mission isn’t to sell you contact or account lists, but to provide you with a full, accurate picture of your target audiences.

Leadspace goes far beyond basic information like company size, industry and job title, to include highly granular, revealing insights like:

- **Job responsibilities** (because “job title” doesn’t tell you enough)
- **Persona, Predictive & Intent Scores,** powered by Artificial Intelligence—so you can zero-in on your ideal customers and predict who is most likely to buy, and when
- **What technologies** your prospects are using (Are they compatible with your offering? Are they using a competitor or a complementary platform?)
- **What areas a particular company specializes in**
- **Which leads/contacts have moved jobs**
- **Up-to-date contact information**

Leadspace is the first Customer Data Platform for B2B Sales and Marketing. Our mission isn’t to sell you contact or account lists, but to provide you with a full, accurate picture of your target audiences.
